🎓 Education

Harbin Institute of Technology, AI Elite Class, B.Eng. Candidate Sep. 2024 – Present

- Weighted average: **91.64/100**; top **10%** in the department; comprehensive assessment ranking: **16/945**.
- Focus areas: artificial intelligence, multimodal generation, agent systems, and competitive programming.

🔧 Projects & Research

VideoClaw, Long-Video Generation Agent System Jan. 2026 – Present

- Project link: github.com/HITsz-TMG/VideoClaw; received **1.6k GitHub stars**.
- Primary developer; built the system from scratch, covering task decomposition, agent scheduling, prompt design, model API wrappers, frontend/backend development, generation pipelines, exception handling, and baseline evaluation.
- Wrapped model/tool calls with **FastAPI** and built the interactive frontend with **Next.js**.

Pixelle-Video, Video Generation Project Apr. 2026 – Jun. 2026

- Project link: github.com/ATH-MaaS/Pixelle-Video; received **24.1k GitHub stars**.
- Developed model-invocation modules in a HIT-SZ–Huawei project, covering API integration, parameter passing, call-flow debugging, system testing, module integration, and stability checks.

Bilingual Multimodal Image Data Collection and Preprocessing Dec. 2025 – Feb. 2026

- Contributed to a HIT-SZ–Huawei multimodal data project, processing tens of millions of image-text samples from **70 datasets**.

China Mobile Showroom Robot, Voice Interaction Module Developer Mar. 2025 – May 2025

- Contributed to a showroom service-robot project and worked on the TTS module for robot voice interaction.
- Exhibited at the 34th Harbin International Economic and Trade Fair and deployed at HIT venues and national key-project exhibition halls.

♥ Awards & Honors

ICPC 2025 Asia Regional, Xi'an Site, Silver Medal ; Nanjing Site, Silver Medal	2025
CCPC 2025 National Invitational, Jinan Site, Silver Medal ; Chongqing Site, Bronze Medal	2025
21st Heilongjiang Provincial Collegiate Programming Contest, Champion	May 2026
CCPC 2025 Northeast Invitational Contest, Gold Medal	May 2025
2025 Baidu Astar Programming Contest National Finals, Silver Medal	Dec. 2025
MCM/ICM, Meritorious Winner	Feb. 2026
8th National College Students' 5-Minute Science English Presentation, National First Prize	Jul. 2025
12th "Datang Cup" ICT Competition, 5G+ Innovation Application Provincial Round, Second Prize	May 2025
People's Scholarship: First-Class once and Second-Class twice; Outstanding Student of HIT	2024–2026

⚙️ Skills & Additional Information

- Programming languages: **C**, **C++**, **Python**, TypeScript, JavaScript, ArkTS.
- AI and multimodal systems: familiar with **PyTorch** and **Transformers**; experienced in multimodal generation, agent systems, prompt design, model API invocation, benchmark construction, and baseline evaluation.
- Engineering: familiar with **FastAPI**, **Next.js**, Linux, and Git; experienced in API wrapping, frontend/backend integration, exception handling, and system testing.
- Data processing: experienced in tens-of-millions-scale Chinese-English multimodal image-text data collection, cleaning, filtering, and quality control.
- Algorithms: long-term ICPC/CCPC training and contest experience; strong foundation in data structures, graph algorithms, dynamic programming, string algorithms, and mathematics.
- English: CET-6 score 581.
